Social media today is more accessible and popular than ever. It can be a risky and dangerous place for children and young adults. Join us to learn about various types of social media, popular apps including what they look like and their capabilities, and the dangers predators and how they infiltrate popular apps. A live demonstration will be conducted to show how quick a juvenile can be targeted by online predators. Come join us and learn valuable information and resources necessary to create and maintain a safe online environment for our youth in Marquette County.
